Smarter Visitor Management.
Safer Schools. Brighter Futures.

November 13th, 2017

To Whom It May Concern:

This is to confirm that Ident-a-Kid Services of America, Inc. is the sole source provider of our Visitor Management System and all additional proprietary supplies used by the software. Our software allows for the tracking and reporting of frequent visitors, staff and students.

We are the sole source provider of all ancillary equipment and supplies to ensure the effectiveness of the system. The equipment and supplies have had exhaustive testing with our system and are supported by our technical support team. Some equipment comes with customized firmware. We provide our free technical support for all customers with complying equipment and supplies.

Our proprietary badges have a watermark, blue border, and come in five colors. This ensures that the new visitor policy being enforced is noticeable. All staff would see the visitor has checked in and is wearing a badge from Ident-A-Kid's Visitor Management system.

If you have any questions, please reach out to our National Office team.

Sincerely,

Emily Fellouzis
Director of Development and Sales
